MEMORANDUM FOR: Mr. Gene Dean  
FBI Member, SECOM

FROM:

Chairman

25X1

SUBJECT:

Capitol Hill Security 

25X1

1. Mr. Aldhizer asked me to broker the attached proposal with the DDCI. Mr. McMahon has approved the arrangement. It is now necessary to document the FBI's agreement. Please arrange for Mr. O'Malley to send Mr. McMahon a memo acknowledging the FBI's assumption of this responsibility under the terms of the attachment. As soon as this is done, I suggest that  CIA Legislative Liaison, and I meet with you and the appropriate Legislative Branch and Capitol Police officials to transfer the program.

25X1

25X1

2. On a related topic, I would urge you to energize the Army to press on with negotiations to place a countermeasures team on Capitol Hill to cover DoD testimony. Col. Press tells me he was advised by "the FBI action officer" to stand down on this effort. Captain Boyle of the Capitol Police has expressed his concern about lack of response from the Army on this matter.

25X1

3. Please advise if I can be of assistance.

SECOM-D-360  
4 November 1982

MEMORANDUM FOR: Deputy Director of Central Intelligence

FROM:

[Redacted]  
Chairman

25X1

SUBJECT: Capitol Hill Security

1. Action Requested: Your approval of an FBI proposal to assume primary responsibility for the upgrading of technical security countermeasures capability of the US Capitol Police.

2. Background: FBI liaison has advised that Mr. O'Malley has proposed the following plan in response to our initiative on this subject:

a. The FBI will take the lead in dealing with the US Capitol Police and Legislative Branch officials.

b. A group will be formed under the Security Committee, chaired by the FBI, to ensure that Community support is provided to the FBI's effort when needed. (I propose to establish a Technical Advisory Group under the SECOM Technical Surveillance Countermeasures Subcommittee for this purpose.)

c. [Redacted] will train the Capitol Police countermeasures technicians.

25X1

d. Gene Dean, the FBI Member of SECOM, will serve as the focal point officer for this activity.

3. Mr. O'Malley's plan is essentially the same as the one we presented to the FBI on 6 October 1982. The only variation is the FBI's proposal for a SECOM group to ensure that they are supported by the Community.

4. Recommendation: I recommend that you approve the FBI's proposal and authorize Burt Hutchings and me to proceed with handing over the program to Gene Dean and FBI Legislative Liaison.
